Join us as we share the amazing 40-year history of Traveling in Time into the Future and the Past and journeying to Mars. The details and documented facts will be provided.

During this Symposium, we will enjoy dolphin swims, meet each day and evening with the fascinating expert speakers and experiencers, and gather together to understand the ramifications of these earth changing revelations which herald an end to the fuel shortages and ongoing oil conflicts and spills. Cosmic Awareness and ET manifestations will also be part of this extraordinary gathering.

Definitive proof of time travel with interstellar civilizations will be presented by Andy Basiago, including slides of life forms on Mars, details of the terrain he witnessed on Mars and also the actual descriptions of past events such as the Civil War, Lincoln's Gettysburg address and Martians on Earth that Andy personally experienced while time traveling to the past.

Alfred L. Webre will share knowledge of the similarities between life on Earth now and the life of the Martians before they made an emergency move underground from their surface environment. He will reveal the locations of the people from Mars now, in present day, living on our planet as a place of refuge. Alfred will also discuss his futuristic understanding of the new Earth and how we are currently moving toward it.

Laura Magdalene Eisenhower will share her reasoning and decisions related to recruitment to join a Martian Colony in 2006, a colony that presently exists on Mars and is populated by people from Earth. Laura will also share her deep connection to the essence of Sophia, the divine feminine. Laura, the great grand daughter of President Dwight D. Eisenhower, is an inspirational speaker with a humanitarian message for the planet right now that is vital and awe-inspiring for everyone.

Jean-Luc Bozzoli will present his unique and beautiful art film of traveling in space with the cetaceans and transdimensional beings.

Joan Ocean will present the dolphins' time travel abilities, communicated by the dolphins as a *Window in Time* and revealed as their method of arrival on Earth. She will share her personal experiences of multidimensional traveling with them.
